

## **URJA KIRAN 2022 - 2023**

### **Workshop at St. John's College Anchal**

URJA KIRAN 2022-23 is a program launched by the Energy Management Centre (EMC) of Kerala in connection with St John's College, Anchal to promote energy conservation and renewable energy sources among the public. The program aims to create awareness and motivate people to adopt energy-efficient practices and technologies in their daily lives. The program also provides training and guidance to local bodies, self-help groups, educational institutions, and other stakeholders on how to implement energy conservation and renewable energy projects in their respective areas.

As part of the program, EMC organizes workshops and seminars across the state to disseminate information and knowledge on various aspects of energy conservation and renewable energy. One such workshop was conducted at St. John's College Anchal on 7.02.2023. The workshop was attended by 70 participants, including local body representatives, general public, and students. The workshop was facilitated by Dr. G. Madhusoodanan Pillai, an EMC resource person who had attended the online RP training of EMC 2022. Main objective of the programme is to create awareness among the participants about the importance and benefits of energy conservation and renewable energy sources.
