FINANCIAL MANAGEMENT

## COURSE SUMMARY REPORT

2021-2022

Name of Course	ADD-ON COURSE Financial Management COM A.21.1
Course Duration	30Hours
Department offering the Course	Department of Commerce
Faculty In Charge	Bainy George
Number of Students Enrolled	20
Start Date & End Date	03/01/22 - 15/03/22

The add on course on **Financial Management( COM A21.1 )** has been coordinated by the Department of Commerce, St John's College, Anchal.. In today's complex financial landscape, the ability to manage personal and organizational finances is crucial. A comprehensive understanding of financial management equips individuals with the knowledge and skills necessary to make sound financial decisions, evaluate investment opportunities, and navigate the intricacies of the global financial market. A financial management course for degree students can significantly enhance their understanding of financial principles and improve their financial decision-making skills. Despite potential challenges, the benefits of this course outweigh the obstacles, preparing students for a competitive and dynamic financial environment. Therefore, it is recommended that the institution consider integrating this course into its curriculum to equip students with the necessary skills for their future professional and personal financial endeavors.

The course had a well-defined syllabus and was approved by the IQAC. The add on course was coordinated by Bainy George, Assistant Professor, Department of Commerce. The course was properly planned and organized to provide maximum support to students during their learning process. The course duration was 30 hours. 20 students enrolled for the program. The course started on -03/01/22 and ended on 15/03/22 .At the culmination of the course, an exit examination was conducted. All students wrote the examination. Final assessment was done based on the marks secured by them during the written examination. Everyone passed in the examination. Certificates were provided to the students after the successful completion of the course.

### Course Title: Financial Management (COMA21.1)

The course objectives for such a course typically aim to provide students or participants with a solid understanding of financial management principles and practices. Here are some key objectives for introducing a financial management add on course:

Course objectives;

1. To develop financial literacy among students by introducing the core financial concepts, terminology and tools
2. To create and manage personal or organizational budgets effectively, which is crucial for financial stability and success.
3. Enable students to create short-term and long-term financial plans, considering factors such as savings, investments, and retirement planning.
4. Educate students about various financial risks and how to mitigate them through insurance, diversification, and other risk management strategies.
5. Equip students with the knowledge and skills needed to make informed investment decisions, including understanding different asset classes, risk-return trade-offs, and investment strategies.

### Course Outcomes:

Financial Literacy: By the end of the course, students should be able to demonstrate a deep understanding of fundamental financial concepts, including time value of money, risk and return, and financial markets.
