

COMMITTEE FOR SC/ST

Annual Report 2021-22

During the academic year 2021-22, despite COVID-19 causing some classes to stop, the SC/ST/OBC Cell of St. John's College kept helping students from different backgrounds. We used online tools for seminars and counselling to support these students with their studies and feelings. We also made sure they could find help online when they needed it because of the pandemic. **No grievances received from students during this academic year.** The committee will try new things to help SC/ST/OBC students feel included and supported in college.
