

## Equal Opportunity Cell

### Annual Report 2019- 20

In the academic year 2019-20, the Equal Opportunity Cell of St. John's College continued its steadfast dedication to cultivating an atmosphere of inclusivity, equity, and equal opportunities for all students. Through a comprehensive array of initiatives and programs, we ensured that every student, regardless of their background, received the essential support and resources necessary to flourish academically and personally. Our primary objective remained centered on fostering inclusivity and diversity across campus. By organizing a variety of awareness programs, seminars, and workshops, our aim was to foster a welcoming environment where students from diverse backgrounds felt embraced and valued. These endeavours not only promoted integration but also facilitated meaningful interactions and mutual understanding among students representing various communities. **We are delighted to report that throughout the year, no grievances were lodged by students**, underscoring the efficacy of our proactive measures in establishing a supportive and inclusive system where every student feels esteemed and respected.
