

Equal Opportunity Cell

Annual Report 2020- 21

Amidst the challenges posed by the COVID-19 pandemic, the Equal Opportunity Cell of St. John's College remained steadfast in its commitment to fostering inclusivity and supporting students from diverse backgrounds. Despite the suspension of in-person classes and campus activities, our committee seamlessly transitioned to remote assistance and guidance for all students. Through virtual platforms, we provided access to online resources and support networks, ensuring that every student, irrespective of their background, felt connected and supported during these unprecedented times. **We are pleased to report that despite the disruptions caused by the pandemic, no complaints were lodged by students throughout the academic year**, highlighting the resilience and effectiveness of our remote support initiatives.
