

Equal Opportunity Cell

Annual Report 2022- 23

In the academic year 2022-23, following the period of the COVID-19 pandemic, the Equal Opportunity Cell of St. John's College embraced a return to normalcy with renewed vigor and commitment to its core mission of fostering inclusivity and supporting students from diverse backgrounds. With the resumption of in-person classes and campus activities, our committee enthusiastically reengaged in providing comprehensive support and guidance to all students. Leveraging the restored on-campus environment, we reinstated our efforts to create a welcoming atmosphere where every student felt valued and empowered to thrive. While continuing to utilize virtual platforms for enhanced accessibility, we also reintroduced face-to-face interactions and support services, ensuring that students had access to a multitude of resources and networks tailored to their needs. As the college community transitioned back to pre-pandemic routines, **we are pleased to report that no grievances were received from students throughout the academic year**, underscoring the successful re-establishment of a supportive and inclusive environment where every student feels respected and valued.
